Teetawat Trakulsuebchai

UX DESIGNER & RESEARCHER

Bangkok, Thailand | 089-164-7164 | tee33127@gmail.com | linkedin.com/in/teetawatt | teetawat.vercel.app

PROFESSIONAL SUMMARY

UX designer and researcher with an M.S. in Human-Computer Interaction and experience planning usability studies, evaluating accessibility, improving information architecture, and translating qualitative and usability findings into product decisions. Professional background in visual storytelling, motion design, and iterative creative production.

CORE SKILLS

Research: Research planning, interviews, contextual observation, surveys, moderated and unmoderated usability testing, card sorting, tree testing, first-click testing, ASQ, affinity mapping, thematic analysis
Design: Information architecture, sitemaps, user flows, wireframing, interactive prototyping, responsive UI, accessibility evaluation (WCAG), visual storytelling
Tools: Figma, FigJam, Maze, Optimal Workshop, ATLAS.ti, Adobe Photoshop, Illustrator, Premiere Pro, After Effects, Lightroom; basic HTML/CSS
Languages: Thai (native); English (upper-intermediate)

SELECTED ACADEMIC UX PROJECTS

Pinly - Product Designer (Solo) | Portfolio **Aug 2026 - Sep 2026**

- Took a mobile app from problem definition to a 32-frame, 98-link Figma prototype, grounded in a 25-response survey and an 8-competitor benchmark.
- Mapped an information architecture of 19 screens and 37 states, then built a component library of 22 families and 63 variants, with variables and text styles, to keep the hi-fi UI consistent.
- Designed a review-and-confirm flow that keeps system-matched places out of recommendations until they are confirmed.

KidsConnect - UX Researcher & Design Contributor | Portfolio **Jan 2025 - Mar 2025**

- Owned usability testing for a 3-person capstone team: built Maze studies and task scenarios, reviewed recordings and heatmaps, and analyzed ASQ data across two rounds (n=8 peer reviewers; n=4 target users).
- Translated findings into navigation and interaction recommendations that raised ASQ scores for Add Child from 4.10 to 5.76 and Delete Child from 4.10 to 6.30; also contributed to a survey (n=16), interviews (n=6), synthesis, and prototyping.

Etsy Mobile - UX/IA Designer | Portfolio **Jan 2024 - Mar 2024**

- Led card-sort setup and label simplification, first-click test design, sitemap creation, and high-fidelity mobile UI work in a 2-person team.
- Iterated the navigation after Treejack testing increased task success from 67% to 94% and directness from 65% to 78%; final first-click tests reached 90% success on both tasks.

Amazon Accessibility - UX Researcher | Portfolio **Sep 2024 - Nov 2024**

- Designed usability tasks, facilitated 1 of 3 remote sessions with blind participants who use JAWS daily, and observed another session evaluating filtering, cart, and checkout flows.
- Analyzed ASQ data, created the affinity diagram, and synthesized five recurring barriers into recommendations for page structure, dynamic content, filters, and accessibility support.

PROFESSIONAL EXPERIENCE

Garena Online (Thailand) Co., Ltd. | ***Video Editor*** **Sep 2020 - Mar 2022**

- Produced promotional gaming videos, motion graphics, and visual effects for digital campaigns using Premiere Pro and After Effects.
- Partnered with designers and content creators, translated feedback into revisions, and delivered assets on campaign deadlines.

Core & Peak Co., Ltd. | ***Graphic Designer Intern*** **Jun 2019 - Aug 2019**

- Designed digital campaign materials in Photoshop and Illustrator, maintained brand consistency, and collaborated with team members to refine final deliverables.

EDUCATION

DePaul University **Jan 2023 - Mar 2025**
Master of Science, Human-Computer Interaction (GPA: 3.83) *Chicago, IL*

Assumption University **Jul 2016 - Jun 2020**
Bachelor of Digital Media *Bangkok, Thailand*

CERTIFICATIONS

Unlock Skill UX/UI + AI (Cohort 51) | ***UXUI Studio, Bangkok*** **Aug 2026 - Sep 2026**

- 5-day hands-on bootcamp covering UX research, journey maps, IA, user flows, wireframes, and Figma design systems.
- Pitched a self-directed design challenge for instructor critique; used Claude, ChatGPT, Gemini, Google Stitch, Figma Make, and Figma MCP.
