PROFESSIONAL SUMMARY

Early-career UX researcher with an M.S. in Human-Computer Interaction and hands-on experience planning usability studies, conducting interviews and observations, analyzing qualitative and usability data, and translating findings into practical design recommendations. Experienced in information architecture, accessibility research, and iterative evaluation, with a professional background in visual storytelling and motion design.

CORE SKILLS

- **Research:** Research planning, interviews, observation, surveys, moderated and unmoderated usability testing, card sorting, tree testing, first-click testing, ASQ, affinity mapping, inductive and thematic analysis.
- **Design:** Information architecture, sitemaps, user flows, wireframing, prototyping, accessibility, responsive UI, visual storytelling.
- **Tools:** Maze, Optimal Workshop, Atlas.ti, Figma, FigJam, Zoom, Photoshop, Illustrator, Premiere Pro, After Effects, Lightroom; basic HTML/CSS.
- **Languages:** Thai (native); English (upper-intermediate)

PROJECT EXPERIENCE

KidsConnect - UX/UI Capstone Project | [See Project](#) | *DePaul University* Jan 2025 - Mar 2025

- Collaborated in a 3-person team on a survey of 16 participants, 6 semi-structured interviews, research synthesis, product scoping, and a low-fidelity prototype for a parent-focused chore management app.
- Created Maze studies and task scenarios for two usability-test rounds (n=8 peer reviewers; n=4 target users), reviewed recordings and heatmaps, interpreted ASQ results, and recommended changes that improved Add Child from 4.10 to 5.76 and Delete Child from 4.10 to 6.30

Amazon Accessibility Barriers - UX Research Project | [See Project](#) | *DePaul University* Sep 2024 - Nov 2024

- Developed usability-test tasks; facilitated 1 of 3 remote sessions with totally blind daily JAWS users and observed another session covering filtering, cart, and checkout tasks.
- Created the affinity diagram, analyzed ASQ results, contributed to inductive coding and the final report, and designed and delivered the final presentation with recommendations for navigation, dynamic content, filters, and support.

Etsy Mobile - Information Architecture Redesign | [See Project](#) | *DePaul University* Jan 2024 - Mar 2024

- Set up the card-sort study, co-recruited participants, simplified card labels for the second round, created first-click testing, built the sitemap, and designed the high-fidelity mobile screens in a 2-person team.
- Team testing improved Treejack success from 67% to 94% and directness from 65% to 78%; first-click testing reached 90% success on both tasks

Lost Item Finding Service - User Research Study | [See Project](#) | *DePaul University* Jan 2024 - Mar 2024

- Conducted 2 in-home observations and 2 follow-up interviews within an 8-participant study; created the affinity diagram and personas, contributed design recommendations, and presented findings on spatial search behavior, stress, privacy, and formfactor needs.

PROFESSIONAL EXPERIENCE

Garena Online (Thailand) Co., Ltd. | *Video Editor* Sep 2020 - Mar 2022

- Produced promotional gaming videos, motion graphics, and visual effects for digital content-marketing campaigns using Premiere Pro and After Effects.
- Collaborated with designers and content creators, incorporated iterative feedback, and delivered polished assets within project requirements and deadlines.

Core & Peak Co., Ltd. | *Graphic Designer Intern* Jun 2019 - Aug 2019

- Designed digital campaign materials in Photoshop and Illustrator, supported brand consistency, and collaborated with team members to refine concepts and final deliverables.

LEADERSHIP EXPERIENCE

Assumption University Student Organization (AUSO) | *Media Team Member* Jan 2019 - Jun 2020

- Created digital and print artwork, videos, banners, and campaign materials for university events and announcements.
- Designed communication assets that supported student engagement across campus channels.

EDUCATION

DePaul University Graduated: Mar 2025

Master of Science, Human-Computer Interaction (GPA: 3.83)

Chicago, IL

- **Coursework:** Usability Testing, UX Research, Interaction Design, Accessibility in Digital Interfaces

Assumption University Graduated: Jun 2020

Bachelor of Digital Media (GPA: 3.20)

Bangkok, Thailand
