UX PROJECTS

KidsConnect - Family Task Management App

Chicago, IL

Capstone Project, DePaul University

Jan 2025 – Mar 2025

- Led end-to-end UX process for family task management app, from research to high-fidelity prototype.
- Conducted 12 user interviews and 40+ surveys plus competitive analysis of 6 apps.
- Built personas and sitemaps that reduced primary task flow from 7 to 4 steps.
- Iterated low-, mid-, hi-fi wireframes in Figma; prototype hit 100% task completion in usability tests.

Amazon Accessibility - Screen Reader Usability Study

Bangkok, Thailand

Research Project, DePaul University

Sep 2024 - Nov 2024

- Ran moderated usability sessions with 3 blind participants using VoiceOver and JAWS on Amazon's purchase flow.
- Identified 11 distinct accessibility issues and mapped each to relevant WCAG 2.1 success criteria.
- Delivered a research report with prioritized design recommendations for inclusive e-commerce.

WORK EXPERIENCE

Garena Online (Thailand) Co., Ltd.

Bangkok, Thailand

Video Editor

Sep 2020 – Mar 2022

- Produced 100+ gaming videos for in-house digital channels with strong engagement metrics.
- Created motion graphics and visual effects supporting brand consistency on weekly release cycles.
- Partnered cross-functionally with designers, writers, and marketers on campaign rollouts.

Core & Peak Co., Ltd.

Bangkok, Thailand

Graphic Design Intern

Jun 2019 – Aug 2019

- Designed marketing banners, event collateral, and promotional materials for client campaigns.
- Translated brand guidelines into digital and print assets across typography, hierarchy, and visual storytelling.
